Say goodbye to old accent pieces

Go through each room and make a note of what needs to go or what can be swapped out with décor in another room. Scatter cushions, lamps, wall art, sculptures, photo frames, and floral arrangements are all things to consider. Simply updating your home accessories can change the entire look of your home.

Remove old focal pieces

Move around or replace accent décor like couch cushions, lamps, wall art, sculptures, photo frames, and floral arrangements in order to update the look and feel of your home.

Rugs

Rugs are an easy way to instantly upgrade your home. They add comfort and are a reflection of your own style, so it's best to shop around for different shapes, sizes, and styles to fit your home's décor.

Coat it

Nothing revitalises a room like a fresh coat of paint. On trend and definitely not boring, white walls are timeless and serves as the perfect backdrop in just about any space. It's also the perfect choice if you like to bring colour into your home through furniture, accessories and other décor pieces.

The thing we love most about April are the holidays and the time off to spend with family and friends. We are lucky in South Africa because the weather is still warm and we can still get to be out doors, enjoying time off and making memories with the people near and dear to our hearts.
