The moment you sit back and relax on a La-Z-Boy®, you'll realize that these recliners are truly in a class of their own: "The quality construction, the exclusive La-Z-Boy® mechanism, and deep, luxurious comfort are the impressions that really last – because, after all, it's what's inside that really counts." No other recliner offers you all these exclusive features:

– **The most reclining positions:** Back and footrest recline individually to provide more than 18 comfort levels. You can move from slightly reclined to full layout position, with the footrest raised to elevate your legs and feet for improved circulation.

– **Patented La-Z-Boy® mechanism:** For the smoothest reclining motion featuring adjustable reclining tensions that allow you to customise the amount of effort needed to recline based on your individual body type.

– **Total body and lumbar support:** Only La-Z-Boy® recliners are designed to provide complete support for your body and lumbar areas in all reclining positions.

– **Secure three-position locking footrest:** Offers a choice of comfort and locks for safety and support.

– **Superior frame construction:** Only La-Z-Boy® recliners have a patented four-sided unibody designed for long lasting durability.
